The People's Money

It is the hope of the housing problem. Even if it were wise to take the taxpayers' money and put the municipality into the building business, it could not raise the money necessary. \$20,000,000 of city money is not enough. Besides it will drive much more than \$20,000,000 of individual money out of the building

There's a Touch of Tomorrow In All Cole Does Today

Do You Know What We Mean When We Say The Aero-EIGHT Is Balanced to Zero?

What gives the Cole Aero-EIGHT its 15,000 miles on tires and causes its 80 HP engine to require so little fuel?

What enables the Aero-EIGHT to be so light and yet possess such strength, endurance and stamina?

Why does the Aero-EIGHT pick up so swiftly and have so great a fund of reserve power?

What vests it with its unusual range of performance and enables it to operate with uniform efficiency throughout its entire speed scope?

Why does the Aero-EIGHT adhere so tenaciously to its course under all conZero Balance Means Long Life to Tires Note These Reports of Owners

and wear and causes its performance from year to year to possess the same dependability?

There is one answer to all of these questions: the Cole Aero-EIGHT is balanced to zero!

That is one of the achievements of aerotype engineering-an exclusive characteristic of the Cole Aero-EIGHT which an hour in traffic or a mile on the road will reveal as one of the master features of automotive engineering.

Owners of Cole Aero-EIGHTS have learned the significance of zero balance through the remarkable performance of their cars. We will be pleased to explain this feature to you. Demonstration by appointment.
